

Public Safety

The Public Safety section presents the departments, programs and functions responsible for or related to community safety and security within the law and justice system.

The three departments included are: Sheriff (which also includes Corrections, the Detention Center Commissary, Marine Services, and Drug Investigation Funds), Emergency Management (which also includes Radio Communications, 911, and the Emergency Management Grants Funds), and the Medical Examiner. Monies from the Criminal Justice Fund are also used to support Public Safety activities. The costs for constructing the new jail are accounted for in the Permanent Jail Construction Fund.

Major Accomplishments in 2008

Within the **Department of Emergency Management** a major milestone was achieved in 2008 with the completion of construction of the new Pierce County Regional Emergency Operations Center (EOC). This accomplishment was highlighted with a Grand Opening Ceremony on May 9th, 2008. The new EOC is a proving to be a model for EOC's nation-wide. It has proven to be a cost-effective investment and was delivered on-time and on-budget. Since it's opening, the facility has already demonstrated its "Multi-Use" design capabilities', evidenced by the numbers of other county agency users who use the facility on a daily basis for trainings and meetings. Since it's opening, it has successfully demonstrated its primary mission role in the activation for an emergency. All systems worked flawlessly and enhanced Pierce County's response to its citizens in need.

DEM completed more than 25 exercises this year for DEM, schools, the Tacoma Pierce County Health Department, Cities and Town and public safety partners. In February, each Pierce County department completed a Continuity of Operations Plan (COOP) exercise, most testing the ability to contact staff and implement COOP measures. In May, Pierce County was selected to attend a special week-long exercise at FEMA's training facility in Emmitsburg, Maryland. This is a highly competitive training/exercise program and is a tribute to Pierce County's continued commitment and excellence in emergency preparedness, response and recovery. The exercise involved a mock terrorist attack at the Port of Tacoma. The course was attended by more than 70 first responders, employees from the Port and associated companies and policy makers from throughout Pierce County.

DEM's planning staff received federal approval of 48 natural hazard mitigation plans for various jurisdictions in Pierce County - an unprecedented effort in this discipline. Work continued with DEM's Vulnerable Population planning effort with County long-term care facilities and regional partners. A series of emergency planning workshops were held for these facilities/partners, an emergency preparedness video was created and distributed and a medical needs sheltering plan was completed for the region. Targeted outreach and training for floods/winter storms was also completed for non-English speaking residents and homeless populations.

The Training & Public Education

Division's Homeland Security training program trained nearly 1,500 this year representing more than 100 agencies from throughout our region. Specific training supported incident command training, DEM Portal applications, WebEOC, SWAT team operations, school violence training, IED, and liability management for special operations. The Pierce County Neighborhood Emergency Team program added 64 neighborhoods this year, bringing the total number of participants to 6,425. Staff also developed an innovative training program for schools that will be implemented in 2009.

The **Emergency Medical Services (EMS)** section of DEM assisted with the development of a Critical Care Transport

Public Safety

Program that has been distributed as a model for statewide use. Assisted in the development of a Paramedic Airway Management Course Pilot Program to be an aid to EMS agencies with paramedics, with potential to be a model for statewide use after the pilot is completed in three years.

The **Fire Prevention Bureau** (FPB) completed over 5,000 fire and life safety inspections and over 225 fire investigations in 2008. Field inspections focused primarily on new construction and less on routine business inspections. FPB has continued a very aggressive training program for our plan review department, as well as some specialized training for field staff. We suffered the loss of four long time employees to retirement this year. Consequently we have spent a great deal of resources hiring and training our new employees. Although the process has been difficult due to losing four employees at the same time, we have hired excellent replacements that are excelling in their new positions.

The **E-911 Program** has continued to upgrade/replace Public Safety Answering Points (PSAP) equipment. In 2008, the Puyallup, Tacoma Fire, Pierce County Fire and Fife PSAP upgrade was completed. The E-911 program is participating on the State E-911 Advisory committee to ensure Pierce County is current and on task with the State Next Generation 911 six year development plan. The Pierce County E-911 program has representation on the State NG-911 committee, Education committee, and the Communications sub-committee.

Radio Communications completed the installation of new EOC emergency communication system, allowing communications to first responders throughout the county and region during disasters. The micro wave ring installation program is 66 % completed. All of the micro wave systems have been installed, with the redundant connectivity into LESA expected to be completed in 2009.

The **Medical Examiner's Office** arranged for forensic dental examination in each case of unidentified human remains and forward the resulting records within thirty days of discovery to local and state agencies having jurisdiction for law enforcement database inclusion. Forensic dental examinations were performed on all cases of unidentified remains that came under the jurisdiction of the medical examiner. Forensic dental examinations were performed by forensic odontologist Dr. Hampl. Notification of the decedents' identifications was transmitted to the investigating law enforcement agency in all cases.

Share all pertinent Medical Examiner case information with appropriate agencies within the timeframes established by interagency agreements and/or state and national guidelines, including completion of 95% of all postmortem examination reports within two months from the time of examination in homicide cases and within three months in other cases. With the dramatic increase in Medical Examiner case load it has not been possible to share information with appropriate agencies within established timeframes. We have fallen behind the expected 95% report completion rate. The overall completion rate has dropped to 84%. The root problem is directly related to the increased case load without associated increase in personnel. Through Nov. 2008, the Medical Examiners Office has certified 766 cases by direct examination and by history without examination.

January thru November data	<u>2007</u>	<u>2008</u>
Bodies brought into morgue	476	724
Autopsies	424	536
Body inspections by MD (no autopsy)	38	175 (63 certified by LMD)
Certified by history	No Stats	118

Coordinate, for two or more medical investigators, extra and intra-departmental training and evaluation compatible with qualification for registration for registry certification by the American Board of Medicolegal Death Investigators (ABMDI). Two investigators have been sent to training within the state. The training tuition and travel expenses are to be reimbursed by WACME. A third investigator was sent to training in St. Louis. In-house training has been instituted. The new training is in the form of morning meetings to review daily case work and discuss all aspects of the medical examiner cases resulting in case specific training. Additional weekly training sessions were scheduled throughout 2008. This training has occurred at least twice per month as caseload allowed. The new training is be geared toward registry certification by the AMBDI.

Sheriff Administrative Services Bureau continued our regional partnerships and planning related to radio interoperability and statewide mobilization issues. The Business Unit again successfully completed several audits during the year and continue to process an increasing number of grants and contracts. The Property Room completed their second move into their larger facility which included a complete inventory of all items in their custody. Our IT personnel continue to provide technological advancements that are enhancing the use of computers out in the field. We continue to strive for 100% participation in mandatory annual training for all commissioned staff in firearms, defensive tactics and emergency vehicle operation.

Accomplishments in the **Sheriff Operations Bureau** for 2008 include the Sex Offender Registration Unit conducting 1,525 address verification checks on all registered sex/kidnap offenders in unincorporated county. This effort allowed us to be in full compliance for the first time with our statutorily required verification requirements. Criminal Investigation Division conducted 11 homicide investigations with a total of 12 victims. All but one of these cases has been cleared with arrests. The Special Investigations Unit conducted an on-going federal investigation with the FBI, which focuses on child prostitution and child exploitation. Nine juveniles were recovered from a federal watch list and turned over to the FBI. The Crime Scene Investigations Unit investigated 1,350 cases with latent fingerprints recovered in 425 of those cases. Of those fingerprints, we have identified 130 individuals.

A new Alarm Ordinance was passed in 2008. This has resulted in approximately a 50% reduction in the number of false alarms that patrol deputies respond to. This reduction has allowed valuable time to remain focused on other patrol duties. Sheriff's patrol and the Community Support Team concluded a burglary ring investigation resulting in seven arrests and 29 burglaries being cleared. CST assisted other Units with warrant arrest sweeps, metal theft/sales emphasis and metal recycling accountability program. Fraud/ID theft detectives partnered with local financial institutions and prosecutors office to investigate, arrest and clear numerous cases tied to several individuals.

Within the **Sheriff's Correction Bureau** the Criminal Justice Task Force Audit was completed. The task force objective was to determine the need for additional jail beds and for implementation designed to reduce jail crowding.

Tacoma Municipal Court video arraignment was added in 2008. This process saves time, helps to manage jail inmate overcrowding, saves staff resources and improves security. The County City Building 2nd floor Court remodel for Superior Courts: CD1, CD2 and CJPJ was completed. Inmate escort times have been reduced allowing for inmates to be processed through court rooms faster and more efficiently.

Shower gates were added to all maximum and high security units in response to ACLU complaints. This safely confines maximum security inmates to the shower areas without the use of restraints until they are ready to be escorted back to their assigned cell. Security screening was installed on upper floor/tier of Three North B unit. Security screening is used to prevent inmate suicides and/or suicide attempts.

Two "Time-Out" cells for the management of inmates in the new jail facility are being constructed and should be completed near the end of 2008. Due to the unit's open areas, there is little privacy. Significant upgrade was made to two maximum security cells in the main jail. These cells will reduce the amount of damage caused by our most violent inmates and will help prevent inmate vs. inmate assaults and assaults on staff

The health services staff is on pace to record 84,164 in-house patient encounters for another outstanding year in terms of productivity. This year we were able to see all patients who requested dental services; and we did this within the health services budget.

Our pharmacy program is doing a number of things to contain, and mitigate cost. Of the medications that we use, over 70 percent are generic. We receive favorable contract pricing and also the ability to return unused medications for credit that's worth approximately \$300,000 annually.

The Jail is working with public and private organizations to establish educational and treatment programs that will help our offenders smoothly reintegrate back into our community. Veteran Affairs for Offenders: Assists eligible Veterans in their efforts to end the cycle of homelessness and their involvement with the criminal justice system. Mental Health Group Classes for Females: Pilot program for female offenders provided by mental health services to assist inmates in identifying those issues

Public Safety

leading to incarceration. The T-ROC Program: Developed due to recent legislation, all Department of Corrections offenders must complete a program after release as part of their probation. By presenting the programs in jail before their release, gives offenders a head-start on meeting their probation needs.

Clear Zone Land Acquisition Fund

Capital Projects Fund

Departmental Summary:

This fund was established in 2008 to account for the revenues (county funds, state and federal grants, other contributions) and expenses associated with the purchase of land adjacent to McChord Air Base to provide for a crash site 'clear zone' area.

Budget Highlights:

The 2009 budget reflects the \$500,000 allocation from the General Fund, which will be used as match for anticipated federal and state grants.

Clear Zone Land Acquisition Fund

Corrections

General Fund

The mission of the Corrections Bureau is to manage, in a safe, secure and humane manner, persons who have been charged with or convicted of offenses. The Pierce County Detention and Corrections Center shall offer opportunities for prisoners to become involved in community-based programs which strive to promote change, enhance self-esteem and create a positive approach to law-abiding lifestyles.

Departmental Summary:

The Corrections Department was established to separately account for costs associated with the Pierce County Corrections and Detention facilities. The inmate population includes prisoners from Pierce County, City of Tacoma, and from other local jurisdictions. In addition, the federal government occasionally houses prisoners at these facilities. The Sheriff's Department is responsible for day-to-day management of the correction facilities, as well as their alternatives to incarceration programs.

Budget Highlights:

The recommended 2009 Corrections budget total is 6.8% above the 2008 figure. The budget reflects:

- a) Deletion of six positions due to the fact that the new Pod planned to be open in October 2008 will remain closed;
- b) A more adequate funding level for overtime; and
- c) Inflationary increases for staff, drug supplies, food, utilities, etc.

Performance Measures

1. Dental Care - in 2007 we had an excess of 100 inmates on the dental list every month. The majority of inmates on the list had non-emergent dental issues. However, they require access to care. We plan to reduce this number to zero to better manage patient flow with our current resources and have a more acceptable waiting period to see a dentist. ^(Goal H)
2. Healthcare - in 2007 we had 274 emergency room visits, which represent a significant cost in the health service budget. We want to reduce this number by 20% in 2009, which is approximately 55 less visits per year. We plan to achieve this reduction by extending weekday clinic hours and providing some weekend coverage with a practitioner. In addition, we will train our nursing staff to encounter patients, when appropriate, and provide a quality therapeutic intervention. This will assist in catching medical problems early and control Emergency Room visits. ^(Goal H)
3. In 2008 we completed a major repair/remodel construction project in our new jail kitchen. Those improved facilities will allow us to achieve the following savings in 2009:
 - a. \$2,544 in water, sewer, soap and rinse agent costs.
 - b. \$32,000 (80%) in Styrofoam containers and paper serving products that were needed when the old dishwasher was out of service.
 - c. Reduction of 160 calls for service (70%) to Maintenance Staff for dishwasher repair work at a savings of \$25,500. ^(Goals H, I)

BUDGET RATIOS

ADP per Corrections Staff

❖ From 1998 to 2008 the average daily population per Corrections Bureau employee decreased by 8%. ADP includes all incarcerated inmates in County facilities. The ten year average is 3.50.

ADP per Thousand Residents

❖ From 1998 to 2008 the number of prisoners per thousand County residents decreased by 9%. ADP includes all incarcerated inmates in County facilities. The ten year average is 1.75.

Operating Cost per Prisoner Day

❖ From 1998 to 2008 the total cost per prisoner day increased 26% after adjusting for inflation. Figures exclude capital costs. The ten year average is \$86.47.

Percent Revenue Generating Prisoners

❖ From 1998 to 2008 the percentage of revenue generating prisoners decreased 30%. The ten year average is 12%.

Percent Compliance Release

❖ From 1999 to 2008 the percentage of booked prisoners receiving a compliance release increased 461%. The ten year average is 3.6%. Data is not available prior to 1999.

Percent Special Identification Process

❖ From 1998 to 2008 the percentage of booked prisoners receiving a Special Identification Process and then released increased 521%. The ten year average is 3.9%.

Criminal Justice Fund

Special Revenue Fund

Departmental Summary:

In 1990 the State Legislature approved a series of revenue measures for local units of government to assist in financing the criminal justice system, including allocating a portion of the Motor Vehicle Excise Tax for this purpose. Previous allocations were deposited into this fund, but current state allocations are now budgeted in the General Fund for criminal justice activities/programs. Residual unspent dollars remain in this fund, augmented by occasional transfers and grants.

Budget Highlights:

These monies are proposed to be allocated in 2009 as follows:

- a) Three (3) Information Technology Specialists
(which is a reduction of one position) for
Judicial System (LINX) and Public Safety
technology enhancements..... \$304,320
 - b) Sheriff ammunition purchases..... 50,000
 - c) Administration and support expenses
(audit, indirect cost, GIS etc) 136,230
 - d) Hardware and Software allocation to
maintain and enhance our electronic systems..... 168,350
 - e) Sheriff Detective funding
(transfer \$ to the General Fund)..... 133,000
 - f) Breaking the Cycle Program 500,000
- \$1,291,900

Detention Center Commissary Fund

Special Revenue Fund

Departmental Summary:

The Jail Commissary provides items to the inmates which they pay for out of their inmate accounts (newspapers, clothing, hygiene items, postage, snack foods, over-the-counter medication, etc.) as well as inmates welfare programs. These functions are managed by the Corrections Department.

Budget Highlights:

This budget reflects the staff allocated to the jail commissary function, the food and merchandise service contract, and the education and chaplain programs. The 2009 budget is considerably higher than the 2008 budget due to inflation and the increased activity level being experienced in 2008.

Detention Center Commissary Fund

Drug Investigation Fund

Special Revenue Fund

Departmental Summary:

The Drug Investigation Fund No. 122 was created by Pierce County Resolution No. 20494. It authorized and directed the Sheriff to accept funds from Orders of the Pierce County Superior Court, or any other municipality, or any other court, or any person or organization shall tender, to be spent and applied for the purpose of investigation and apprehension of persons criminally involved in the illegal sale, possession or distribution of drugs or controlled substances.

In addition to funds generated from the Courts, this fund has also been used for the deposit of monies generated from seizures and forfeitures which result from search warrants executed by officers assigned to the Narcotics Unit of the Sheriff's Department Investigations Division. Monies allocated back to the Prosecuting Attorney's Office from TNET distributions are also accounted for in this fund.

Budget Highlights:

The 2009 Drug Investigation Fund provides for:

- a) Funding for two Sheriff's and four Prosecutor's positions;
- b) Investigative expenses and overtime;
- c) Upgrades to the Thun field facility (\$313,940); and
- d) Sheriff equipment purchases.

Emergency Management

General Fund

The mission of the Department of Emergency Management is the preparation of Pierce County for disaster through public education, training, and planning; the support of a system of emergency medical and trauma care; the prevention of fires through inspection, plan review, education, and investigation; and the administration of radio communication needs and the Enhanced 911 program.

Departmental Summary:

The Department of Emergency Management is responsible for emergency preparedness, fire prevention activities, and administration of emergency medical services in Pierce County. The department provides public education opportunities and training for first responders; develops emergency plans; and works to create an atmosphere of cooperation in the community. The department is the sponsoring organization for the Puget Sound Urban Search and Rescue Task Force as part of the national response system.

The Fire Prevention Bureau is responsible for reducing the threat and losses from fire through inspections and public education programs; inspects businesses as part of the Commercial Inspection Program; issues permits under the Uniform Fire Code; investigates complaints; reviews plans for commercial projects, water systems, and subdivision plats; provides public education programs; and investigates fires for cause and origin.

The Pierce County Emergency Medical Services Division (EMS) coordinates countywide EMS agencies to facilitate optimum emergency medical access, response and care to residents of and the visitors to the County.

Budget Highlights:

The Department of Emergency Management's budget for 2009 is 2% above last year's total. The budget reflects one less position, and cutbacks in several budget line-items.

Performance Measures

Division of Emergency Management

1) In the 2008 session of the State Legislature, an appropriation of \$317,000 for Pierce County Lahar System siren replacements was passed and approved by the Governor. In 2009 Pierce County Emergency Management will undertake a comprehensive "top to bottom" assessment and upgrade of the existing county-wide Lahar Siren Warning system. At a minimum, all 26 sirens will be inspected, tested and analyzed for upgrade. In 2009 13 of the 26 sirens will be retrofitted with new Satellite based monitoring and activation systems. We will replace 13 existing Civil Defense style sirens, with four newer technology, satellite monitored "All-Hazard

Broadcast Sirens". Additionally, in 2009 Pierce County DEM will work with City and Port of Tacoma Officials to install 14 new sirens of this type at the Port of Tacoma, insuring Lahar Warning System coverage from Orting down to the Port by the end of 2009. (Goal C)

2) Pierce County Department of Emergency Management (DEM) will sustain a Pierce County Neighborhood Emergency Team (PC-NET) Volunteer Trainer program that will allow us to increase the number of neighborhoods we typically add to the program each year, from 60 to 100 neighborhoods. (Goals C, D, G)

Emergency Management

3) DEM will achieve accreditation through the Emergency Management Accreditation Program (EMAP). It is a standard-based voluntary assessment and accreditation process for state and local government programs responsible for coordinating prevention, mitigation, preparedness, response, and recovery activities for natural and human-caused disasters. Accreditation is based on compliance with standards developed collaboratively nationwide. (Goal C)

Fire Prevention Bureau

1) In 2009, Fire Prevention Bureau will present a series of educational programs designed to educate the public on the different types of household smoke alarms (detectors) and make recommendations to provide the best protection. Our goal will be to conduct 30 programs at various community, civic, and other group meetings, reaching a minimum of 300 citizens. (Goal C)

BUDGET RATIOS

Expenditures per Resident

Emergency Management Division

❖ From 1998 to 2008 expenditures per resident served by the Division increased 28% after adjusting for inflation. The ten year average is \$1.69.

Volunteer Training Hours per 100 Residents

Emergency Management Training Program

❖ From 1998 to 2008 the hours of volunteer training provided per 100 County residents decreased 4%. In addition to Search and Rescue training, after 2007 volunteer training totals included other efforts such as Pierce County Neighborhood Emergency Teams. The ten year average is 7.1.

Investigations per Deputy Fire Marshal

Fire Prevention Bureau

❖ From 1998 to 2008 the number of investigations per Deputy Fire Marshal decreased 15%. The ten year average is 70.

Inspections per Deputy Fire Marshal and Inspector

Fire Prevention Bureau

❖ From 1998 to 2008 the number of inspections and reviews per Inspector and Deputy Fire Marshal increased 40%. The ten year average is 787.

Cost per Commercial Inspection

Fire Prevention Bureau

❖ From 1998 to 2008 the cost per commercial inspection increased 20% after adjusting for inflation. The ten year average is \$120.

Emergency Management Grants Fund

Special Revenue Fund

Departmental Summary:

The fund is utilized to account for grant funded Emergency Management related activities beyond the general preparedness program. The major programs for 2007 include the continuing Homeland Security Grant for the national initiative, State Homeland Security Program (SHSP), support for the Urban Search and Rescue (US&R) deployment team, and the Law Enforcement Terror Prevention Program (LETPP). Also included is the Urban Areas Security Initiative Grant Program (UASI).

Budget Highlights:

The 2009 budget reflects several grant funded programs, as shown on the next page. The initial 2009 budget reflects a status quo funding level, but additional grant monies could be received later in 2009.

Marine Services Fund

Special Revenue Fund

Departmental Summary:

Marine Services is a specialized unit activity of the Sheriff's Department. The Marine Services Fund was created by Pierce County Ordinance 94-35 to account for that portion of vessel registration fees which are collected by the State of Washington and allocated to counties with approved boating safety programs. Pierce County's boating safety program includes the following elements:

- Ensure all waterways within unincorporated Pierce County are patrolled during peak recreational periods.
- Investigate all serious and fatality boating accidents in unincorporated Pierce County.
- Coordinate response to boating emergencies; respond to waterway complaints, accidents and emergencies within the limitation of available resources.
- Serve as a resource for Homeland Security.

Budget Highlights:

The 2009 Marine Services budget continues to support the increased level of general marine services and boating safety activities that were initiated in 1999. The 2009 budget increase from 2008 is a result of a one-time capital purchase budgeted for 2009.

Marine Services Fund

Medical Examiner

General Fund

The outcome of the work of the Medical Examiner is knowledge concerning deaths that are of forensic concern – knowledge needed by the community to see that justice is done, public safety is improved, and public health is protected.

Departmental Summary:

The Medical Examiner's Office investigates those deaths occurring in Pierce County, which are of concern to public health, safety, and welfare. This includes all violent or otherwise unnatural deaths and deaths of apparent natural causes which occur suddenly or under suspicious or unexplained circumstances. Based on the evidence discovered, the Medical Examiner's Office makes every attempt to accurately determine the identity and circumstances leading up to the death through death investigations. Modern medical and forensic science is applied to the death investigation process by highly trained technical staff so that murder shall be recognized, the innocent shall be exonerated, and previously unrecognized public health and industrial hazards shall be revealed. The Medical Examiner's Office provides for an independent assessment of an individual's death. This objective and independent role of the Medical Examiner's Office calls for sound and impartial forensic medical documentation and testimony for both criminal and civil law proceedings. The policies & practices of the Medical Examiner's Office are established by law, and with consideration of national standards and guidelines.

Budget Highlights:

The 2009 Medical Examiner's budget is 14.7% above the 2008 level, and includes:

- (a) Inflationary adjustments for existing staff and operations;
- (b) A large increase in outside professional services for required pathology coverage; and
- (c) Increased space rental costs as the Medical Examiner moves into space formerly occupied by Public Works.

Performance Measures

- 1) Arrange for forensic dental examination in each case of unidentified human remains and forward the results within thirty days of discovery to local and state agencies having jurisdiction for law enforcement database inclusion. (Goals C, E)
- 2) Share all pertinent Medical Examiner case information with appropriate agencies within the time frames established by interagency agreements and/or state and national guidelines, including completion of 95% of all postmortem examination reports within two months from the time of examination in homicide cases and within three months in other cases. (Goals C, E)
- 3) At least two medical investigators will receive extra and intra-department training and evaluation compatible with qualifications for registry certification by the American Board of Medicological Death Investigations. (Goals C, H, J)

Percent of Deaths Investigated

❖ From 1998 to 2008 the percentage of all deaths within the County that were investigated by the Medical Examiner's Office decreased 22%. The ten year average is 15%.

Percent of Deaths Autopsied

❖ From 1998 to 2008 the percentage of deaths where an autopsy was done by the Medical Examiner's Office increased 9%. The ten year average is 7.6%.

Death Reports per Investigator

❖ From 1998 to 2008 the number of death reports per investigator decreased 6%. The ten year average is 257.

Deaths Investigated per Staff

❖ From 1998 to 2008 the number of deaths investigated per staff position (all employees) decreased 31%. The ten year average is 58.

Postmortem Exams per Pathologist

❖ From 1998 to 2008 the number of postmortem exams per pathologist increased 43%. The ten year average is 253.

Postmortem Exams per Technician

❖ From 1998 to 2008 the number of postmortem exams per technician decreased 5%. The ten year average is 223.

Medical Examiner

Permanent Jail Construction Fund

Capital Project Fund

Departmental Summary:

This fund previously accounted for the costs related to the design and construction of a new permanent jail facility, the remodeling of sections of the existing Main Jail, and related transition expenses (e.g. staff hiring/training) prior to the opening of the New Jail. In recent years it has reflected the costs associated with the security system claims, necessary jail modifications and capital improvements. In future years remaining monies will be allocated to jail capital improvements and funding a portion of the jail bond debt service.

Budget Highlights:

The 2009 budget reflects:

- a) \$7,000,000 for the remodel of unit 4T in the Main Jail;
- b) \$532,700 allocated for other capital improvements and repairs;
- c) A \$1,602,290 allocation to pay a portion of the annual jail bond issue debt service; and
- d) County administrative and support costs.

Radio Communications Fund

Internal Service Fund

The mission of the Department of Emergency Management is the preparation of Pierce County for disaster through public education, training, and planning; the support of a system of emergency medical and trauma care; the prevention of fires through inspection, plan review, education, and investigation; and the administration of radio communication needs and the Enhanced 911 program.

Departmental Summary:

The Communications Division of Emergency Management Services maintains the radio communications system, electronic emergency equipment, traffic radar, closed circuit video cameras and monitors and associated equipment. Responsibilities include the acquisition, installation, repair and preventative maintenance of all radio equipment and systems. The department acts as liaison with other government and private entities to ensure coordination and to protect against radio frequency interference in Communications systems. In addition, the department maintains appropriate licenses and insures the system meets Federal and State requirements.

Budget Highlights:

The Radio Communications Fund budget for 2009 includes:

- a) Normal inflationary increases for staff, supplies, etc;
- b) New and replacement purchases of radios, Sheriff laptops, and shop equipment;
- c) Completing a GPS/Narrow Band project for Public Works; and
- d) Replacement of the radio communication building.

Performance Measures

- | | |
|---|--|
| <p>1) The micro-wave ring project in conjunction with Pierce transit which will allow multiple paths into LESA and the Emergency Management, and thus, provide infrastructure</p> | <p>survivability during disasters will enter its third and final phase of the three year project. Full completion is expected by the end of 2009. (Goal C)</p> |

BUDGET RATIOS

Operating Cost per Radio

❖ From 1998 to 2008 the operating cost per radio increased 9% after adjusting for inflation. The count of radios excludes laptop computers within the fund. The ten year average is \$453.

Radios per Technician

❖ From 1998 to 2008 the number of radios per Communication Technician decreased 13%. The count of radios excludes laptop computers within the fund. The ten year average is 394.

Radio Communications Fund

Sheriff

General Fund

The mission of the Pierce County Sheriff's Department is protect life and property, to uphold rights and help build stronger, more livable communities.

Departmental Summary:

The Pierce County Sheriff's Department provides police services and manages the adult detention facilities. Services include response to calls for service, uniformed patrol, crime prevention, crime scene examination and criminal investigations in response to the needs of citizens living and working in unincorporated Pierce County. The Civil Section provides timely service of court orders throughout the County. The department also provides traffic law enforcement, accident investigation, as well as response to a variety of hazards, emergencies and crisis situations. The Sheriff's Department deploys a number of highly trained, specialized units in handling these varied and vital responsibilities.

Additionally the Department delivers police services for University Place, Edgewood, and Pierce Transit, as well as involvement with multi-agency task forces and school partnerships.

Budget Highlights:

The 2009 Sheriff's budget is 5.5% higher than the 2008 appropriation. This budget reflects the following position adjustments:

- a) Four new "Contract" Patrol Deputies for Pierce Transit;
- b) Two Deputies (S Hill), one Deputy (Background), one Deputy (NPD), two Deputies (Warrant and Recruiting) currently "on hold" in the 2008 budget are funded, but continued on hold until October 2009;
- c) Two new grant funded positions – a Detective and an Office Assistant;
- d) A large increase in the LESA allocation; and
- e) Monies for the red light camera vendor payments and associated traffic safety training.

Performance Measures

Administrative Services

- 1) Traffic Reports - Traffic Collision reports comprised approximately 14.5% of our 37,360 total written incidents in 2007. Our report writing program is being enhanced with a Traffic Collision reporting capability that is being field tested during 2008. Our objective is to fully deploy this reporting capability in 2009, which should allow officers to save approximately 30 minutes in 7% of their collision reports; and approximately 15 minutes on each Information Exchange report that is given to the driver of each vehicle involved in a collision. Motorists and officers will be able to clear the roadways more

quickly thereby enhancing safety and traffic flow. (Goals C, E, H)

Operations Bureau

- 1) Sex Offender Registration and Verification Unit - we will complete residency verification checks on all Level III Registered Sex/Kidnap Offenders on a quarterly basis (currently 56), and residency verification checks on all Level II Registered Sex/Kidnap Offenders (currently 133) on a yearly basis. We will monitor and coordinate with the Patrol Division and Residency Detachments to complete residency verification checks on all Level I Registered Sex/Kidnap Offenders (currently 795) and unrated Registered Sex/Kidnap

Sheriff

- 2) Offenders (currently 71) on a yearly basis. These efforts will bring us into compliance with our statutory requirements. (Goals C, D, H)
- 3) Interdiction - The Sheriff's Special Investigations Unit in partnership with the Tacoma DEA Drug Task Force, Immigrations and Customs Enforcement (ICE) and other

local and federal law enforcement agencies will identify, investigate, disrupt and dismantle at least eight drug trafficking organizations comprised of five or more individuals who work together to distribute drugs in Pierce County. (Goals C, E)

- ❖ From 1998 to 2008 the percent of crimes investigated by detectives in unincorporated Pierce County and contract cities increased 1%. The ten year average is 27%.

Percent of Crime Cleared

- ❖ From 1998 to 2008 the percent of crimes cleared in unincorporated Pierce County and contract cities increased 13%. The ten year average is 24%.

911 System Fund

Special Revenue Fund

The mission of the Department of Emergency Management is the preparation of Pierce County for disaster through public education, training, and planning; the support of a system of emergency medical and trauma care; the prevention of fires through inspection, plan review, education, and investigation; and the administration of radio communication needs and the Enhanced 911 program.

Departmental Summary:

The 911 System provides for continuation of the public safety emergency telephone access system which links 71 local, state and federal agencies, six adjoining counties and six telephone companies. The 911 number allows a citizen to access police, fire, medical aid or ambulance from virtually any telephone in the County.

Budget Highlights:

The 2009 budget for the 911 System fund includes the following major items:

- a) Land lines and wireless monthly service provider billings - \$422,000;
- b) PSAP allocations - \$1,524,480;
- c) Equipment, hardware and system upgrades - \$1,700,000;
- d) Intelecast Emergency Warning System - \$175,000;
- e) System repairs and maintenance - \$346,000;
- f) EOC annual loan repayment - \$850,000;
- g) Staff costs and all other operating and support expenses - \$1,019,970; and
- h) System analysis review - \$225,000.

We are using \$642,230 in prior fund balance to support this requested budget.
