2.04.010 Authority and Purpose.

- A. Chapter 42.56 RCW, the Public Records Act ("act"), requires each agency to make available for inspection and copying nonexempt "public records" in accordance with published rules. The act defines "public records" to include any "writing containing information relating to the conduct of government or the performance of any governmental or proprietary function prepared, owned, used, or retained" by the agency.
- B. The purpose of these rules is to establish the procedures Pierce County will follow in order to provide full access to public records. These rules provide information to persons wishing to request access to public records of Pierce County and establish processes for both requesters and Pierce County staff that are designed to best assist members of the public in obtaining such access. These rules have been written to incorporate best practices for compliance with the act and are based upon and organized according to Model Rules promulgated by the Attorney General of the State of Washington. They completely replace the former Chapter 2.04 PCC.
- C. The purpose of the act is to provide the public full access to information concerning the conduct of government, mindful of individuals' privacy rights, to protect public records from damage or disorganization and to prevent excessive interference with other essential functions of the agency. The act and these rules will be interpreted in favor of disclosure. In carrying out its responsibilities under the act, Pierce County will be guided by the provisions of the act describing its purposes and interpretation.
- D. All County departments, divisions, bureaus, boards, committees, commissions and officers are required to follow these procedures.

(Ord. 2007-76s2 § 1 (part), 2007; Ord. 82-58 § 1 (part), 1982; prior Code § 2.76.010)

2.04.020 Agency Description – Contact Information – Public Records Officer.

- A. Pierce County is a political subdivision of the State of Washington and an agency subject to the act. The officers, departments, bureaus, boards, committees, commissions, elected officials, and other agencies of the County are also agencies subject to the act, and any person wishing to request access to public records of Pierce County, any agency of

Pierce County, or seeking assistance in making such a request shall contact the public records officer of the applicable agency. Records at the judiciary and court files may not be subject to the Public Records Act or to this Ordinance, at least to the extent set forth in Nast v. Michels, 107 Wn.2d 300 (1986) and Spokane & Eastern Lawyer v. Tompkins, 136 Wn.App. 616 (2007), and disclosure of such records may be subject to the common law and to applicable court rules and orders. These rules, therefore, do not address access to court records.

- B. Requests for access to public records shall be addressed to the Public Records Officer of the applicable County agency as set forth below:

- C. A list of name, address, telephone, and fax number of current public records officers for agencies of Pierce County will be posted on the County's website at <http://www.co.pierce.wa.us>, and copies of that list will be provided upon request by the public records officer for the County designated by the Pierce County Executive to be known as the Pierce County Public Records Ombudsperson, 955 Tacoma Ave S, Ste 302B, Tacoma, WA 98402.
 - D. The applicable public records officer will oversee compliance with the act but another agency staff member may process the request. Therefore, these rules will refer to the public records officer "or designee." The public records officer or designee will provide the "fullest assistance" to requesters; ensure that public records are protected from damage or disorganization; and prevent fulfillment of public records requests from causing excessive interference with essential functions of Pierce County or its agencies.
- (Ord. 2007-76s2 § 1 (part), 2007; Ord. 82-58 § 1 (part), 1982; prior Code § 2.76.020)

2.04.030 Availability of Public Records.

- A. **Hours for Inspection of Records.** Public records are available for inspection and copying during normal business hours of Pierce County and any of its applicable agencies, Monday through Friday, 8:30 a.m. to 4:30 p.m., excluding legal holidays. Records must be inspected at the offices of the public records officer or designee for Pierce County or its applicable agency set forth in Section 2.04.020 or such other County office designed by the public records officer or designee.
- B. **Records Index.** The Pierce County Council finds that maintaining an index is unduly burdensome and would interfere with agency operations for Pierce County and its applicable agencies. The requirement would unduly burden or interfere with Pierce County operations and with that of its applicable agencies because Pierce County employs approximately 3,500 employees who generate hundreds of records on a daily basis that include final opinions and orders made in the adjudication of cases, statements of policy, interpretations of policy, administrative manuals, instructions to staff that affect members of the public, planning policies and goals, interim and final planning decisions, factual staff reports and studies, factual consultant's reports and studies, scientific reports and studies, factual information derived from tests, studies, reports, or surveys, and correspondence and materials referred to therein relating to regulatory, supervisory, or enforcement responsibilities. Virtually every County department would be required to devote several full-time employees exclusively to the task of collecting, reading, categorizing, indexing, and maintaining a current index of such records. In addition, the time required by other employees to ensure that the records were forwarded to the designated employees for indexing and communicating with the designated employee regarding the purposes of the records would be substantial. Because of the size of Pierce County, the volume and variety of such records and lack of available resources to devote to such an endeavor, creating an index would be unduly burdensome and would unduly interfere with agency operations.
- C. **Organization of Records.** Pierce County maintains its records in a reasonably organized manner. Pierce County and each of its agencies will take reasonable actions to protect records from damage and disorganization. A requester shall not take original records from Pierce County offices or that of its agencies. A variety of records is available on the Pierce County web site at <http://www.co.pierce.wa.us>. Requesters are encouraged to view the documents available on the web site prior to submitting a records request.

D. Making a Request for Public Records.

1. Any person wishing to inspect or obtain copies of public records of any Pierce County agency shall make the request in writing on Pierce County's standards request form, by delivery, U.S. mail, or fax, or addressed to the public records officer of the Pierce County agency to which the request is directed. The form shall include the following information:
 - a. legal name of requester;
 - b. mailing address of requester;
 - c. other contact information, including telephone number, fax number, and any e-mail address;
 - d. reasonable identification of the public records requested adequate for the public records officer or designee to identify and locate the records;
 - e. the date and time of day of the request; and
 - f. the signature of the requester.
2. Persons seeking public records or information available for inspection and copying from Pierce County may seek assistance from the Pierce County Public Records Ombudsperson. The Public Records Ombudsperson may facilitate identification of records which are available for disclosure and minimize unnecessary effort and cost to the County and to persons seeking available records. The applicable public records officer should provide an information copy of complex public records requests to the Public Records Ombudsperson.
3. If the requester wishes to have copies of the records made, instead of simply inspecting them, he or she shall so indicate and make arrangements to pay for copies of the records or at least make a deposit of 10 percent of the cost of copying estimated by the public records officer or designee before copying will commence. Pursuant to Section 2.04.070, standard black and white 8½" x 11" photocopies will be provided at 15 cents per page, or if the public records officer to whom the request is made has available for inspection and copying a schedule setting forth the actual cost of copying the requested records and the factors and manner by which that actual cost has been determined, that actual cost of copying shall be collected instead.
4. Requests shall be made to the selected public records officer upon a standard form promulgated by the Public Records Officer for the County designated by the Pierce County Executive, which shall be made available at the office of each agency's public records officer and on-line at <http://www.co.pierce.wa.us/PC/>.
5. Persons requesting public records that include a list of individuals will be required to provide a declaration under penalty of perjury certifying sufficient facts from which the public records officer or designee can reasonably determine that the records will not be used for any commercial purpose (profit-expecting activity) prohibited by RCW 42.56.070(9) unless specifically authorized by other law.
6. Persons requesting public records for which other laws limit or prohibit disclosure to a particular class of persons or for limited purposes will be required to provide a declaration under penalty of perjury certifying sufficient facts from which the public records officer or designee can reasonably determine that the legal requirements for disclosure of such records to the requester have been met.

(Ord. 2007-76s2 § 1 (part), 2007; Ord. 82-58 § 1 (part), 1982; prior Code § 2.76.030)

2.04.040 Processing of Public Records Requests – General.

- A. **Providing "fullest assistance."** Pierce County and each of its agencies is charged by statute with adopting rules which provide for how it will "provide full access to public records," "protect records from damage or disorganization," "prevent excessive interference with other essential functions of the agency," provide "fullest assistance" to requesters, and provide the "most timely possible action" on public records requests. The public records officer or designee will process requests in the order allowing the most requests to be processed in the most efficient manner.
- B. **Acknowledging Receipt of Request.** Within five business days of receipt of the request, the public records officer will do one or more of the following:
 - 1. Make the records available for inspection or copying;
 - 2. Provide in writing, mailed or delivered to the requester, a reasonable estimate of time when records will be available;
 - 3. If the request is unclear or does not sufficiently identify the requested records, request clarification from the requester. Such clarification may be requested and provided by telephone, but it is desirable to confirm such clarifications in writing. The public records officer or designee may revise the estimate of when records will be available; or
 - 4. Deny the request, in whole or in part.
- C. **Consequences of Failure to Respond.** If the County or its applicable agency does not respond in writing within five business days of receipt of the request for disclosure, the requester should contact the public records officer to determine the reason for the failure to respond.
- D. **Protecting Rights of Others.** In the event that the requested records contain information that may affect rights of others and may be exempt from disclosure, the public records officer or designee may, prior to providing the records, give notice to such others whose rights may be affected by the disclosure. Such notice should be given so as to make it possible for those other persons to contact the requester and ask him or her to revise the request or, if necessary, to seek an order from a court to prevent or limit the disclosure. The notice to the affected persons will include a copy of the request.
- E. **Records Exempt or Prohibited from Disclosure.** Some records are exempt from or are prohibited from disclosure by law, in whole or in part. If Pierce County or its applicable agency believes that a record is exempt from or prohibited from disclosure and should be withheld, the public records officer or designee will state the specific exemption or prohibition under which the record or a portion of the record is being withheld. If only a portion of a record is exempt or prohibited from disclosure but the remainder is not exempt or prohibited, the public records officer will redact the exempt or prohibited portions, provide the nonexempt portions, and indicate to the requester why portions of the record are being redacted.
- F. **Inspection of Records.**
 - 1. Consistent with other demands, Pierce County or its applicable agency shall promptly provide space to inspect public records. No member of the public may remove a document from the viewing area or disassemble or alter any document. The requester shall indicate which documents he or she wishes the agency to copy.
 - 2. The requester must claim or review the assembled records within 30 days of the County's or its applicable agency's notification to him or her that the records are available for inspection or copying. The agency will notify the requester in writing of this requirement and inform the requester that he or she should contact the agency

to make arrangements to claim or review the records. If the requester or a representative of the requester fails to claim or review the records within the 30-day period or make other arrangements satisfactory to the County or its applicable agency, the County or its applicable agency may close the request and refile the assembled records. Other public records requests can be processed ahead of a subsequent request by the same person for the same or similar records, which can be processed as a new request.

- G. **Providing Copies of Records.** After inspection is complete, the public records officer or designee shall make the requested copies or arrange for copying upon a deposit of at least 10 percent of the estimated cost of copying.
- H. **Providing Records in Installments.** When the request is for a large number of records, the public records officer or designee will provide access for inspection and copying in installments, if he or she reasonably determines that it would be practical to provide the records in that way. If, within 30 days, the requester fails to inspect the entire set of records or one or more of the installments after being made available, or to pay the balance of the cost of copying of records copied or those copied in an installment, the public records officer or designee may stop searching for the remaining records and close the request.
- I. **Completion of Inspection.** When the inspection of the requested records is complete and all requested copies are provided, the public records officer or designee will indicate that Pierce County or its applicable agency has completed a diligent search for the requested records and made any located non-exempt records available for inspection.
- J. **Closing Withdrawn or Abandoned Request.** When the requester either withdraws the request or fails to fulfill his or her obligations to inspect the records or pay the deposit or final payment for the requested copies, the public records officer will close the request and indicate to the requester that Pierce County or its applicable agency has closed the request. Subsequent copies requested may not be made until the requester has paid any unpaid bill for copying services requested by the requester, whether or not the copies previously made have been retained for the requester or destroyed when the previous bill remained unpaid for more than 30 days after notice mailed to the requester.
- K. **Later Discovered Documents.** If, after Pierce County or its applicable agency has informed the requester that it has provided all available records, Pierce County or its applicable agency becomes aware of additional responsive documents existing at the time of the request, it will promptly inform the requester of the additional documents and provide them on an expedited basis.
- L. **Protection of Records and Functions.**
 - 1. Public records shall be made available without disrupting essential functions of the offices. Any County employee who believes that response to public records requests will excessively interfere with other essential agency functions shall consult with his or her supervisor.
 - 2. An agency may follow a reasonable schedule regarding retrieval of a record from an off-premises storage site so that no more than one trip per week to the remote site is required.
 - 3. With regard to copying, prearrangement is recommended so that it can be accommodated within the work schedule. Copies shall be made only by a staff member. The precise time must remain flexible and will depend upon the work schedule for that day.

4. With regard to video or audio recordings, prior arrangements must be made for review. A staff member will be assigned to operate the County recording equipment necessary to either listen to or rerecord the original recording tape to protect originals. The public records officer may limit the maximum time allowed during any working day for supervised review to avoid excessive interference with the agency's other essential functions. If the agency is able to provide access which excludes the requester from access to original records which might be damaged or disorganized and from access to originals or copies prohibited or exempt from disclosure, additional time may be made available.
5. Review of other original records shall be done only in the immediate presence of and under the supervision of a County employee responsible for protecting the originals against damage, alteration, or disorganization by the requester. The public records officer may limit the maximum time allowed during any working day for supervised review to avoid excessive interference with the agency's other essential functions. When the time needed for this purpose exceeds two hours, time periods on a future day or days may be assigned. If the agency is able to provide access which excludes the requester from access to original records which might be damaged or disorganized and from access to originals or copies or exempt from disclosure, additional time may be made available.

(Ord. 2007-76s2 § 1 (part), 2007; Ord. 82-58 § 1 (part), 1982; prior Code § 2.76.040)

2.04.050 [Reserved]

(Ord. 2007-76s2 § 1 (part), 2007; Ord. 82-58 § 1 (part), 1982; prior Code § 2.76.050)

2.04.060 Exemptions.

The Public Records Act provides that a number of types of documents are exempt from public inspection and copying. In addition, documents are exempt from disclosure if any "other statute" exempts or prohibits disclosure. Exemptions outside the Public Records Act that restrict the availability of some documents held by Pierce County or its applicable agencies for inspection and copying include, but are not limited to, those set forth for counties and municipalities in the most recent list of other such statutes posted on the web site of the Municipal Research Service Center, which is present www.mrsc.org/Publications/pr06.pdf, Appendix C, and which is incorporated herein by reference. The list is available for inspection and copying from the applicable public records officer.

Pierce County and its agencies are prohibited by statute from disclosing lists of individuals for commercial purposes.

(Ord. 2007-76s2 § 1 (part), 2007; Ord. 82-58 § 1 (part), 1982; prior Code § 2.76.060)

2.04.070 Costs of Providing Copies of Public Records.

- A. **Costs Required for Inspection.** There is no fee for inspecting public records. There is no fee for the staff time necessary to prepare the records for inspection, for the copying required to redact records before they are inspected, or an archive fee for getting the records from off-site. The costs of making the records available for inspection or copying are not charged to the requester.
- B. **Costs for Copies.** A requester may obtain standard 8½" x 11" black and white photocopies for 15 cents per page. If the actual cost of copying is determined by the County or by the applicable agency to be other than 15 cents per page, that charge may be collected if a statement of the factors and the manner used to determine this charge is

available from the public records officer or designee. Before beginning to make these copies, the public records officer or designee may require a deposit of 10 percent of the estimated costs of copying all the records selected by the requester. The public records officer or designee shall require the payment of the remainder of the copying costs for those copies before providing them to the requester, whether they include all of the records or an installment. Pierce County and its agencies do not charge sales tax when they make copies of public records. The Department of Budget and Finance shall assist agencies in determining the factors and manner of calculating the actual cost of copying.

- C. **Costs for Electronic Records.** The cost of electronic copies of records shall be the amount per hour for copying information on a CD-ROM or other media, plus the listed cost for each CD-ROM or other media as set forth in the statement of the factors and manner used to determine this charge available from the applicable public records officer. The Department of Budget and Finance shall assist agencies in determining the factors and manner of calculating the actual cost of copying.
- D. **Costs of Mailing.** Pierce County or its applicable agency may also charge actual costs of mailing, including the cost of the shipping container or envelope if the requester requests mailing or shipping.
- E. **Payment.** Payment may be made by cash, check or money order to Pierce County.
- F. **Waiver of Payment.** Pierce County or its applicable agency may waive the cost of copying if the cost is less than the cost of processing payment as determined by the Director of Budget and Finance.
- G. **Charges Required by Other Statutes.** If a different charge for copies or certification is required to be collected by a statute other than the Public Records Act, such as RCW 36.18, RCW 46.52.085 or RCW 10.97.100, the provisions of that statute shall govern.
- H. **Outside Contracts for Copying.** The applicable agency may arrange for copying by County contractors charged with preserving and protecting public records, instead of copying requested records using County services. In such event, the cost of copying charged shall be the contract charges, and such charges shall be paid by the requester directly to the County contractor who performed the copying. If the requester made a deposit in advance of copying, any unapplied portion of the deposit will be refunded to the requester, provided that the contract charges are paid and the copies are picked up by the requester within 30 days after written notice of the unpaid contract charges is mailed to the requester's address.
- I. **Repetitive Contracts.** The County Executive may enter into contractual agreements with persons who intend to request access to public records available for disclosure to them on a continuous or regularly recurring basis. The terms of any contract executed in accordance with this Section will supersede and control over any otherwise applicable provisions of this Chapter.

(Ord. 2007-76s2 § 1 (part), 2007; Ord. 94-24 § 1, 1994; Ord. 82-58 § 1 (part), 1982; prior Code § 2.76.070)

2.04.075 Disposition of Funds.

Money received for copies shall be receipted and deposited as set forth in Cashiering Procedures promulgated by the Department of Budget and Finance. (Ord. 2007-76s2 § 1 (part), 2007)

2.04.080 Review of Denials of Public Records.

- A. **Petition for Internal Administrative Review of Denial of Access.** Any person who objects to the initial denial or partial denial of a records request may petition in writing to the public records officer or designee for a review of that decision. The petition shall include a copy of or reasonably identify the written statement by the public records officer or designee denying the request.
- B. **Consideration of Petition for Review.** The public records officer or designee shall promptly provide the petition and any other relevant information to the public records officer's supervisor or other officials designated by the agency to conduct the review, who shall immediately consult with the Prosecuting Attorney before action on the petition. That person will immediately consider the petition and either affirm or reverse the denial within two business days following the agency's receipt of the petition, or within such other time as is mutually agreeable to Pierce County and the requester.
- C. **Judicial Review.** Any person may obtain judicial review of a public records request denial pursuant to RCW 42.56.550 at the conclusion of two business days following the initial denial regardless of any internal administrative appeal.

(Ord. 2007-76s2 § 1 (part), 2007; Ord. 82-58 § 1 (part), 1982; prior Code § 2.76.080)

2.04.090 Access to Public Records.

The providing of public records shall be governed by the following procedures:

- A. Each administrative department shall adopt and enforce reasonable rules regarding retrieval and public inspection of records. Public records shall be made available without disrupting essential functions of the offices. Any County employee who believes that essential functions will be interrupted shall consult with his or her supervisor.
- B. An agency may adopt reasonable rules regarding retrieval of a record from an off-premises storage site so that no more than one trip per week to the remote site is required.
- C. Any request made to the Microfilm Department for a public record shall be made by the department whose records are requested. Requests for microfilm records by persons other than those authorized by the originating department shall not be honored.
- D. Duplicate, carbon copy or other secondary records are to be dealt with in the same manner as the original or primary copy.
- E. With regard to photocopying, prearrangement for copies of records is recommended so that they can be accommodated within the work schedule. Copies shall be made only by a staff member once each day. The precise time must remain flexible and will depend upon the work schedule for that day. However, copying will be done between 2 p.m. and 3 p.m. whenever possible. Copies may be picked up later in the afternoon or the next day. When a special machine warm-up, set-up, or trip outside the immediate area is required, the requested copies shall be run along with regular department work. If such measures are necessary, copies will be provided by the end of the following business day, unless the record requested must be retrieved from a site off-premises.
- F. With regard to other printing, Ozalid, Sepia, blueprints, or photostatic copies of maps, graphs, charts, etc., which cannot be produced within the office will be forwarded to the appropriate County department or outside business. The requestor will be billed directly by the printer. This will be performed once each day in a manner similar to photocopying.

- G. With regard to tape recordings, prior arrangements must be made to listen to or copy a tape recording. A staff member will be assigned to operate the County recording equipment necessary to either listen to or rerecord the original tape. To maintain the department's and individual's work schedule, two hours shall be the maximum time allowed during any working day for this purpose. When the time needed for this purpose exceeds two hours, time periods on future day or days will be assigned.
- H. With regard to the production of transcripts, not more than two hours each working day shall be expended by the transcriber. Time periods shall be adjusted daily to fit the normal work schedule.

- B. The following are rules for application of the fees contained in the above Tables:
1. When an application requires both Critical Fish and Wildlife Review and Wetland Review, just one combined review fee equal to the full amount of the larger fee plus one-half the amount of the smaller fee shall be charged.
 2. When an application is made for the department to "Verify the Absence of a Wetland" on their property and wetlands are found, the applicant must re-apply for a categorization and delineation.
 3. If the Department requires an environmental assessment and a wetland application for a proposal solely because the proposal is located on land covered by water and is not, therefore, categorically exempt from SEPA pursuant to WAC 197-11-800, the department will not charge an environmental assessment fee.
 4. When multiple geological assessments (reports or evaluations) are required for a project, the total review fees may be adjusted as follows: Total fee = geological assessment with the highest fee + 50 percent of the fee for each subsequent geological assessment. For example: (Landslide Hazard Geological Assessment = Report \$1,115) + Shoreline Hazard Geological Assessment-Evaluation \$490 x 50%) = \$1,360 = Total Fee.
 5. The fees for any combination of Shoreline Substantial Development Permit, Shoreline Conditional Use Permit, Shoreline Variance, or Shoreline Expansion of Nonconforming Use Permit shall be determined by the itemized project cost estimate of fair market value consistent with the calculations for Shoreline Substantial Development Permit.

- B. That interest rates and construction costs have made it impossible for persons of low income to purchase their own homes in Pierce County;
- C. That interest rates and construction costs have made it extremely difficult for rental property owners to rehabilitate their rental property and rent it to low income persons at rental rates they can afford;
- D. That it is the public policy of Pierce County to assist in making available to persons of low income, through lease or purchase, affordable, decent, safe and sanitary housing;
- E. That it is recognized that the shortage of decent, safe and sanitary housing for persons of low income cannot be accomplished through the operation of private enterprise; and
- F. That it is a proper governmental function to assist in making available to persons of low income affordable, decent, safe and sanitary housing. Because of the existence of these conditions there is a need for establishment of a Pierce County Housing Authority, and said Authority is herewith established.

The Pierce County Executive, with the approval of the Council, may acquire buildings, structures, places, or districts of historic or architectural significance by purchase, gift, devise, bequest, grant, or exchange when it is deemed necessary by the Executive and the Council, to preserve, protect or enhance said building, structure, place, or district, and when funds are available or other means of acquisition are deemed acceptable to the Executive, and approved by the Council. (Ord. 87-59S § 1 (part), 1987; Ord. 84-23 § 1 (part), 1984; prior Code § 14.04.010)

2.88.020 Landmarks and Historic Preservation Commission.

A Landmarks and Historic Preservation Commission is hereby established. The Commission shall consist of eleven members, one from each of seven Council districts and four at-large members. The membership of such Commission shall include at least one historian, one architect, one archeologist, one archivist, and individuals who have a professional or a vocational interest in historic preservation.

- A. The Landmarks and Historic Preservation Commission shall periodically review, investigate, and make recommendations to the Executive on buildings, structures, places, or districts of historic or architectural significance which should be preserved or protected in Pierce County. The Commission may investigate whether there is federal, state, or other financial assistance for the acquisition and preservation of the site.

Furthermore, the Commission shall establish a list of buildings, structures, places, or districts of historic or architectural significance in Pierce County which should be preserved, protected, or enhanced in a hierarchy order of its value to the community and State based on the criteria provided below in this Section.

This list shall be referred to as the Pierce County Register of Historic Places and distributed to all County departments.

- B. The criteria used to evaluate historic properties for possible inclusion in the Pierce County Register are based on those used for the National and Washington State Registers. These criteria are designed to serve as guidelines for all persons or organizations preparing a designation request to the Pierce County Commission.
1. The quality of significance in American history, architecture, archaeology, and culture is present in districts, sites, buildings, structures, and objects of State and local importance that possess integrity of location, design, setting, materials, workmanship, feeling, and association, and:
 - a. that are associated with events that have made a significant contribution to the broad patterns of our history; or
 - b. that are associated with the lives of persons significant in our past; or
 - c. that embody the distinctive characteristics or a type, period, or method of construction, or that represent the work of a master, or that possess high artistic values, or that represent a significant and distinguishable entity whose components may lack individual distinction; or
 - d. that have yielded, or may be likely to yield, information important in pre-history or history.
 2. Cemeteries, birthplaces, or graves of historical figures, properties owned by religious institutions or used for religious purposes, structures that have been moved from their original location, reconstructed historic buildings, properties primarily commemorative in nature and properties that have achieved significance within the past 50 years can also be considered eligible for the Pierce County Register. However, greater priority will be given to those which fall within the following categories.
 - a. A religious property deriving primary significance from architectural or artistic distinction or historical importance.
 - b. A building or structure removed from its original location but which is significant primarily for architectural value, or which is the surviving structure most importantly associated with a historic person or event.
 - c. A birthplace or grave of a historical figure of outstanding importance if there is not appropriate site or building directly associated with his or her productive life.
 - d. A cemetery which derived its primary significance from graves or persons of transcendent importance, from age, from distinctive design features, or from association with historic events.
 - e. A reconstructed building when accurately executed in a suitable environment and presented in a dignified manner as part of a restoration master plan, and when no other building or structure with the same association has survived.
 - f. A property primarily commemorative in intent if design, age, tradition, or symbolic value has invested it with its own historical significance.
 - g. A property achieving significance within the past 50 years if it is of exceptional importance.
 3. Below are categories of properties eligible for the Pierce County Register.
 - a. Historic structures or sites in which the cultural, political, economic, or social history of the nation, state, or local community is best exemplified and from which the visitor may understand the patterns of American and Pierce County heritage. Integrity is an essential basis for deserving recording.

- b. Sites and groupings representing historic community developments and patterns. (One room schools, county seats, crossroads, stores, agricultural settlements, seaports, railroad, and water transportation.)
 - c. Early or abandoned transportation facilities. (Lighthouses, covered bridges, ships, ferries, railroad stations, milestones, trails.)
 - d. Old commercial structures and sites. (Warehouses, brick factories of the 19th century, iron furnaces, shipyards, logging, and mining camps.)
 - e. Structures related to the civic life of a community. (Town hall, jail, bank, tavern.)
 - f. Buildings of great architects or master builders and important works of minor ones. Noteworthy examples of various architectural styles, periods, or methods of construction. Architectural curiosities or very rare survivors of its style or period.
 - g. Homes of notable persons during their active years, or associated with important events in national, state, or local history.
 - h. Structures or sites of pre-historic or historic archaeological significance.
4. Archaeological properties do not have to be large, impressive, or rich in artifacts or categories of date to qualify for the Pierce County Register. They do not have to be suitable for public interpretation. Any archaeological resource is potentially eligible if it can be legitimately argued that it is associated with a cultural pattern, process, or activity important to the history or pre-history of its locality, the United States or humanity as a whole.

Some properties that have little significance as individual entities may be eligible as segments or archaeological districts. In some cases, an archaeological property or district may also qualify because of an association with a particular event or person, or on the basis of its intrinsic historicity or utility as an interpretive location.

Properties that have lost their integrity by being completely excavated or otherwise totally disturbed do not normally qualify, unless they are of particularly noteworthy historical significance for the data they have yielded.

- C. The Commission will make recommendations on funding and monitoring projects and programs that receive funding from the County's one dollar portion of the five dollar per instrument surcharge charged by the Auditor for each document recorded under the provisions of RCW 36.22.170. The priorities for funding of these projects and programs include:
- a. Promote public awareness and education of the historical and cultural heritage of the people and area of Pierce County and its communities;
 - b. Identify, preserve, and store documents and public records of historic significance, including conversion to electronic and other media;
 - c. Collect, acquire, catalog, interpret and exhibit historically significant artifacts and documents, including manuscripts, photographs, illustrations, maps, engineering and architectural drawings, art works, music, book reports, pamphlets, newspapers, periodicals, oral histories, and electronic media in all areas (social and cultural, artistic, scientific and technical, political, commercial and industrial, and natural history);
 - d. Identify, protect, rehabilitate, restore, excavate, and reconstruct districts, sites, buildings, and other structures, gardens, landscapes and other objects of significance to heritage, history, architecture, archeology, or culture;

- e. Provide capital funds for capacity building projects to nonprofit historic and historic preservation groups that encourage cultural and historical studies and interpretive efforts.
- D. The Planning and Land Services Department shall provide funding and administrative support to the Commission.
- E. The duties of the Commission shall include the establishment of definitions, criteria, and procedures required to carry out this legislation.

It shall also establish a regular time and place for meetings and shall hold at least four meetings per year. Special meetings may be called by the Chairperson or by a majority of the current membership of the Commission upon proper notice. - D. The County shall suspend a contract with any business entity or contractor that the United States Attorney General or the Secretary of Homeland Security has found to have been in violation of 8 U.S.C. § 1324a should the business entity or contractor fail to correct the violation within 30 business days of receiving notice of the violation from the United States Attorney General or the Secretary of Homeland Security.
- B. The County shall not suspend the contract of any business entity or contractor per subsection A. of this Section if, prior to the date of the violation, the business entity or contractor verifies the work authorization of any alleged unlawful workers using the E-Verify program and demonstrates the same to the County.
- C. The Executive may waive the suspension mandated by subsection A. or a disqualification mandated by PCC 2.106.022 after making a determination that a suspension or disqualification would substantially disrupt the operations of the County. The Executive shall provide notice to the Council within ten days of waiving a suspension or disqualification under this subsection.
- D. Every contract entered into by the County shall provide that any suspension for E-Verify noncompliance shall terminate one business day after a legal representative of the business entity or contractor submits, at a County office designated by the Executive, a declaration signed under penalty of perjury of the laws of the state, in the form provided by the County, stating with specificity that the violation has ended.

All such publications shall include a request that firms interested in providing those services to the County submit a statement of qualifications and performance data to be placed on file.
- B. Prior to entering into a service contract for an amount of \$5,000.00 or greater, the requesting department or the Agent, when appropriate, shall evaluate all statements on file, together with those that may be submitted by other firms and shall conduct discussions with one or more firms regarding anticipated concepts and the relative utility of alternative methods of approach. All bids which offer a different trade name, make, or catalog number must state whether the item offered is equal or an alternate, and literature which describes the item offered must be provided, when available. The purpose and intent of this Chapter is to remedy the effects of discrimination against minority business enterprises (MBEs) and women's business enterprises (WBEs), to prevent Pierce County from directly or indirectly participating in or perpetuating the effects of such discrimination, and to ensure that neither the County nor its contractors, consultants, subcontractors, subconsultants, suppliers, or vendors discriminate on the basis of race, creed, color, sex, age, marital status, national origin, or the presence of any sensory, mental, or physical handicap, in any of their employment practices, and to encourage economic development and competition for Pierce County public works contracts as defined in RCW 39.04.010, as well as Pierce County consultant, supply and service contracts. The provisions of this Chapter shall be liberally construed for the accomplishment of the policies and purposes of this Chapter. (Ord. 90-81 § 3 (part), 1990)

2.107.020 Powers and Duties.

The Pierce County Executive has the administrative and official authority to carry out this Chapter, pursuant to the Pierce County Charter, Section 3.25. The Executive or his or her designee shall:

- A. Implement the purposes and requirements of this Chapter, including the promulgation of appropriate guidelines and definitions;
- B. Make affirmative efforts to solicit bids and proposals on public works contracts from MBEs and WBEs (M/WBEs);
- C. Require that consultants who contract with Pierce County make affirmative efforts to utilize M/WBEs as subconsultants, where subconsultants are utilized in the performance of the work;
- D. Make affirmative efforts to solicit bids and proposals from M/WBEs for the procurement of goods and services;

- E. Implement and cooperate with other local jurisdictions in implementing technical assistance and outreach programs to increase the ability of M/WBEs to compete for the award of Pierce County public works contracts;
- F. Cooperate with other local jurisdictions in compiling information relating to the purposes and requirements of this Chapter;
- G. Cooperate with other local jurisdictions to standardize and share resources for forms and requirements, record keeping, analysis of availability and other issues, annual and other reports, outreach and technical assistance programs, and staff training;
- H. Examine the goals specified by this Chapter and the implementation of this Chapter at least every three years and advise the Council at such time as the goals should be revised or the requirements of the Chapter are no longer necessary to serve the Chapter's purposes; and
- I. Comply with any related laws or requirements of any federal or state agency participating in any public works or other project.

(Ord. 90-81 § 3 (part), 1990)

2.107.030 Public Works Contracting Requirements.

Public works contracts shall be awarded and administered in accordance with the following standards and procedures:

- A. The County will establish the following annual MBE and WBE goals on public works contracts in excess of \$10,000.00:

MBE: 14 percent

WBE: 8 percent

These are overall goals, and particular contracts may have higher or lower goals. Where an outside funding agency has a requirement for a combined overall goal for Disadvantaged Business Enterprises (DBEs), inclusive of M/WBEs, the County's combined overall annual goal shall be the sum of the separate MBE and WBE annual percentage goals.

- B. Invitations to bid and requests for proposals shall require bidders and proposers to affirmatively solicit commercially useful participation by M/WBE subcontractors and suppliers, and include in their bid or proposal commercially useful M/WBE participation that equals or exceeds a percentage to be determined by the Executive for the contract. The Executive shall determine the MBE and WBE percentage goals for each contract, or may waive the percentage requirement, based upon the following:
 1. the annual goals and the extent to which they will otherwise be satisfied;
 2. the subcontracting, joint venture, supply, and other opportunities presented by the contract;
 3. the availability of qualified MBEs or WBEs to perform work under the contract;
 4. the location of the project and of the contractors and subcontractors likely to compete for the contract;
 5. the degree of economic burden, unjustifiably high prices, or risk that would be imposed on the County or on contractors;
 6. the extent to which goods or services under the contract must be immediately provided or an emergency otherwise exists;
 7. the fact that the contract involves federal, state, or local funding and/or requirements; and
 8. the best interests of the County.

- C. The Executive may reduce M/WBE contract goals for contractors who state in writing under oath that their overall utilization of M/WBEs certified by the OMWBE on private sector projects during the preceding calendar year has met or exceeded the percentages set forth in Section 2.107.030 A, provided the contractor submits information acceptable to the Executive showing the extent of their public and private sector utilization of M/WBE's during each of the three preceding calendar years the contractor has been in business.
- D. In addition to the percentage utilization goals, the Executive may require that a minimum number of MBEs or WBEs participate in certain contracts or in contracts of a certain size.
- E. Bids or proposals that do not satisfy the above requirements, including the MBE and WBE participation requirements, or that do not satisfy bid or proposal conditions that are deemed by the Executive to facilitate these requirements, shall be declared non-responsive, provided that the Executive may award to the otherwise responsive low bidder if he determines that the bidder has made a good faith effort to attain the M/WBE contract goal(s) by achieving MBE and WBE participation which meets or exceeds the average MBE and WBE participation achieved by all bidders. If the lowest bid is rejected, the Executive may award to the next lowest bidder who has met the aforementioned good faith requirement.

(Ord. 90-81 § 3 (part), 1990)

2.107.040 Certification.

The Executive shall consider only those businesses certified by the State of Washington Office of Minority and Women's Business Enterprises as meeting M/WBE utilization goals. The Executive may elect not to consider participation of a certified sub-contractor or supplier only where the sub-contractor or supplier is not providing a commercially useful function, or if, after notice and opportunity for hearing, the Executive has made a public finding prior to bid opening, and that the sub-contractor or supplier does not suffer from discrimination in the local construction industry. (Ord. 90-81 § 3 (part), 1990)

2.107.050 Consultant Services Contracting Requirements.

Consultant Service contracts in excess of \$10,000.00 shall be awarded and administered in accordance with the following standards and procedures:

- A. The County recognizes that opportunities for the use of subconsultants may not be present in all consultant services contracts. If a consultant is capable of performing and elects to perform all work under such contract utilizing only employees of the consultant, no subcontracting is required. If the consultant elects to subcontract any portion of the work, the consultant shall make affirmative efforts to solicit and utilize M/WBEs as subconsultants.
- B. The consultant will be considered to have made an affirmative effort to solicit and utilize M/WBEs as subconsultants if the consultant takes the following steps:
 1. Obtain listings of M/WBEs capable of performing the specified subconsulting work, and;
 2. Solicit proposals from M/WBEs by written request, and
 3. To the greatest extent practical, award subcontracts to M/WBE subconsultants who are capable of performing the requested work.

C. Consultants who elect to utilize subconsultants will be required to certify and provide evidence that the aforementioned requirements have been met.
(Ord. 90-81 § 3 (part), 1990)

Ten percent of total annual lease value for DBEs.

(Ord. 90-128 § 1, 1990; Ord. 90-81 § 3 (part), 1990)

2.107.080 Employment Goals.

In keeping with County equal opportunity policy, all public works, consultant, supply and service contracts larger than \$10,000.00 with firms having ten or more employees shall have the following goals for employment by the contractor, consultant or vendor, and all subcontractors and subconsultants:

Minorities: 12.2 to 15 percent
Women: 6.9 percent

Pierce County shall not require an employer to fire or lay off any existing employee to meet the County's goals for the employment of minorities and women, nor shall the County require an employer to hire unqualified workers to meet these goals. However, when an employer on a public works, consultant, supply, or service contract hires new employees, it shall be the employer's obligation to make a good faith effort to hire qualified minorities and women until the employer's Pierce County work force reflects of the goals set forth herein.

(Ord. 90-81 § 3 (part), 1990)

2.107.090 Uses of Pierce County Residents and Local Businesses.

All parties doing business with Pierce County shall be encouraged to utilize Pierce County residents and local businesses whenever qualifications and cost effectiveness are deemed competitive. (Ord. 90-81 § 3 (part), 1990)

If the above mentioned Sections of this Chapter have not been repealed by January 1, 2000, the Council shall determine by the end of that year whether substantial effects of discrimination against M/WBEs in the relevant market remain, and whether and for how long these Sections should remain in effect. Sections 2.107.060 through 2.107.100 shall not be affected by the above mentioned termination date. (Ord. 90-81 § 3 (part), 1990)

2.107.120 Severability.

If any provision of this Chapter or its application to any person or circumstance is held invalid, the remainder of the Chapter or the application of the provision to other persons or circumstances shall not be affected. (Ord. 90-81 § 3 (part), 1990)

M. Notation. For all lands granted approval under the timber land current use assessment program, the Assessor shall document current use and market values on the assessment and tax rolls.

(Ord. 98-114S § 3 (part), 1999)

2.114.060 Current Use Assessment Open Space Land and the Public Benefit Rating System.

A. Purpose. The purpose of the public benefit rating system is to correlate community values for the preservation of open space to a value reduction given to applicants in the open space land current use assessment program. The public benefit rating system establishes a priority ranking system for various open space resources; groups these resources into high, medium, and low point categories; sets forth criteria for determining eligibility of proposed resource lands; and correlates the point values against a value reduction table. Optional bonus categories have also been provided which grant extra points for other conditions expressed by the community as valuable to the program such as public access, linkage of open space, conservation easements, and preservation of open space within urban areas.

B. Applicability. The public benefit rating system only applies to those properties that qualify under the open space land classification in the current use assessment program. The system does not apply to current use assessment applications for commercial agricultural and forest land properties which qualify under Chapter 84.33 RCW (timber and forest lands), RCW 84.34.020(2) and RCW 84.34.065 (farm and agricultural lands).

C. Application Filing.

1. Applications for open space land current use assessment shall be made upon a form prepared and supplied by the Department. Forms shall also contain a statement of the potential tax liability involved when such land ceases to be designated as open space.

2. Applications shall be filed with the Department no later than the last working day of the year preceding the year classification would begin.
3. Complete applications shall contain the required information necessary to determine classification of land under this Section and shall include a notarized signature of the property owner verifying that all such information provided is a true statement of fact. If necessary, the Department may request the applicant to provide additional information to determine program eligibility or point ranking.
4. If an application for classification is denied, a reapplication covering the same parcel of land or a portion thereof, may not be submitted to the Department for one year following the date the initial application was received.

D. Public Benefit Rating System Program Eligibility.

1. Each property described in an application for open space land classification shall be evaluated for the presence of open space priority resources and bonus categories listed in Appendix "A", Table 2.114-1.
2. A minimum of three priority resource points are necessary to qualify under the program. This would be one high priority resource for five points or one medium resource for three points or three low priority resource types for three points. No greater than 15 priority resource points are allowed. Refer to subsection I. for detailed eligibility criteria, data sources, and examples.
3. A maximum of 25 points are allowed.
4. Bonus categories and points are offered for proposals which grant public access, have lands which are located within an urban designation, dedicate a conservation or historic easement, or provide linkage of open space parcels. Additional eligibility criteria for bonus categories is set forth in subsection K.
5. If a priority resource category definition or eligibility criteria includes a component set forth in a bonus category, then points from that bonus category are automatically factored into the proposal, i.e., trails would automatically qualify for five public access points.
6. Qualification for a priority resource category is determined based on the definitions and eligibility criteria and is not limited by referenced data sources and examples.

E. Verification of Open Space Priority Resources.

1. The presence or occurrence of a proposed open space resource will be verified by the department or County agency responsible for the administration of the public benefit rating system. Said department or agency may, from time to time, call upon another County department or agency with appropriate expertise to aid in the verification process. The provisions set forth in Section 2.114.030 and subsections 2.114.060 I. and K. shall be used in the verification process.
2. Alternatively, the existence of the proposed open space resource may be verified by an expert recognized by the County in the particular resource being reviewed.

F. Management of the Open Space Resource.

1. As a condition of approval, the property owner shall agree to maintain the open space resource(s) in the same or better condition than existed at the time the approval was granted.
2. Any activities engaged in by the property owner which reduces the value of the land as open space is prohibited; e.g. the cutting of trees, clearing of brush, blocking of views. Exceptions to this provision may be granted when such activities are deemed as necessary by the Department to protect public health, safety, and welfare or are the result of an act of nature (floods, storm etc.).

3. Violations of any provisions of the open space agreement shall constitute a change of use and be subject to RCW 84.34.080 and 84.34.108.
- G. Re-evaluation and Administrative Amendments to Previously Approved Open Space Land Current Use Assessment Applications.**
1. The Department shall have the authority to grant administrative amendments to previously approved open space land current use assessment applications. Administrative amendments are strictly limited to inclusion of bonus category points for the Designated Urban Lands category identified in 2.114.060 K.3.
 2. By December 31, the applicant shall submit a letter to the Department which outlines the request for a re-evaluation of points and includes documentation which supports the requested change (e.g. land use amendment indicating shift of the property to an urban designation).
 3. By June 1, the Department shall notify the property owner of the final decision to approve or deny the request for amendment.
 4. If approved by June 1, the correlating value reduction, if applicable, shall become effective the following calendar year.
 5. As provided in RCW 84.34.037(3) and 84.34.55(3), property that is enrolled in the County's open space land current use assessment program as of the date of adoption of the public benefit rating system will be re-evaluated. Such re-evaluations will be performed in conjunction with the physical inspection cycle as funds become available or when the property is sold, whichever comes first.

J. **Public Access.**

1. Access to the County's open space lands by the general public is required unless it is determined that such public access would damage or endanger a sensitive resource, or the Planning Commission determines that public access to a given site is unreasonable, unsafe, or inappropriate due to unique circumstances.
2. Resource categories which are sensitive and may require limited or restricted access include fish and wildlife habitat conservation areas, critical salmon habitat, streams, wetlands, estuaries, tidal marshes, lakes, marine areas.
3. The Planning Commission shall determine whether public access is appropriate for sensitive resource categories. If the Planning Commission determines that limited, restricted or no access is warranted then bonus category points for public access will be granted.
4. Public access is mandatory for those resource categories which either contain public access requirements in the definition or eligibility criteria. These resource categories will automatically be granted bonus category points for public access.
5. If public access points are requested for non-sensitive resource categories, or when public access is mandatory as part of the eligibility criteria, a sign indicating public access is available at the site shall be required. The open space land current use assessment application material shall contain detailed information on signage size, lettering, placement etc.
6. A property owner may request that general public access be limited to the hours between sunrise and sunset or request that signage stipulate other provisions to protect general health, safety and welfare such as, but not limited to, *no guns, no dogs, and no fires*.
7. The County Council shall make the final determination on the appropriateness of such requests, the appropriate method of informing the public, and so stipulate in an agreement that runs with the land.

K. **Bonus Category Criteria.** The following bonus categories are not mandatory and are at the option of the applicant unless specifically defined and listed in the eligibility criteria for a priority resource category:

1. **Public Access.** See Section 2.114.060 J. for public access requirements. Bonus category points will be awarded for all open space applications that include mandatory public access authorized by 2.114.060 J.
 2. **Conservation/Historic Preservation Easements.**
 - a. A conservation easement is a restriction in perpetuity on the use of property. It is a recorded deed restriction, or covenant, and the enforcement of the restriction is most often given to a Land Trust or a government agency. A conservation easement will prevent future real estate development, industrial or commercial use. The easement may allow continued current uses, including, for example, residential and recreational use, agriculture, forestry, or ranching. However, most often a conservation easement restricts both the current as well as the future uses of the land to some important conservation quality of the land, such as habitat, open space, or scenic views.
 - b. A conservation easement or restrictive covenant must be recorded against the deed as a part of the final agreement with the land owner.
 3. **Designated Urban Lands.**
 - a. Properties which are located within the Urban Growth Area (UGA) or Comprehensive Urban Growth Area (CUGA) as designated by the Pierce County Comprehensive Plan Generalized Proposed Land Use Plan.
 - b. Properties located within the municipal boundaries of an incorporated city or town.
 4. **Provides Linkage of Open Space Parcels.**
 - a. The subject property abuts another parcel which currently provides a high or medium priority resource and when both are left undeveloped create a corridor.
 - b. The subject parcel must abut a parcel of land which is already in the current use assessment program or is subject to a conservation easement or restrictive covenant as such is defined above.
 5. **Super Bonus.**
 - a. The subject property must accumulate five or more priority resource points to be eligible for this bonus; and
 - b. Public access is subject to the provisions set forth in Section 2.114.060 J. above; and
 - c. A conservation easement or restrictive covenant must be recorded against the deed as a part of the final agreement with the land owner.
- L. **Value Reduction and Open Space Land Current Use Assessment Valuation Schedule.**
1. Properties enrolled in the current use assessment program for open space land have the assessed value of their land set at the "current use" value based upon the public benefit rating system rather than the fair market value of "highest and best use" of the land.
 2. The current use assessment value will be expressed as a percentage of market value based upon the public benefit of the property as determined by the total points scored through the public benefit rating system. See Table 2.114-2, Tax Reduction and Valuation Schedule, in Appendix "B".
 3. Total point values are rounded-down on any point differential to determine percent reduction, e.g. five points would equal a 20 percent reduction.

4. Points calculated under this program shall be applied to the entire parcel described in the application materials submitted for consideration; except any area which contains improvements to the land, as determined by the Assessor, shall be excluded from the calculated area and shall be subject to standard assessment practices of the Assessor.
5. In the case of commercial recreational facilities, such as golf courses, ball fields, and sports complexes, the current use classification would apply to the raw land only.
6. Property which does not have a tax parcel number assigned by the Assessor-Treasurer, or for which any value is carried in adjoining properties which have parcel numbers, shall not be granted open space classification and rating.

M. Public Hearing.

1. The Department shall set a date for a public hearing before the Pierce County Planning Commission after all requests for additional information, if applicable, have been satisfied.
2. The Department shall transmit a report to the Planning Commission in accordance with Planning Commission Rules of Operation.
3. The Department shall publish notification of the public hearing date and time in the official County newspaper and mail notification to the applicant, established land use advisory commissions, and any other individual requesting notification at least ten days prior to the scheduled hearing.
4. If public access bonus points are requested by the applicant, written notice shall be mailed to the latest recorded real property owners, as shown by the records of the Assessor, within at least 300 feet of the property boundaries of the site under consideration. The notice shall be mailed at least ten days prior to the published hearing date. In those instances where public access bonus points are requested for the first time during the course of the hearing before the Planning Commission, then said case shall be continued until written notice is given to real property owners residing within at least 300 hundred feet of the property boundaries of the applicable site under consideration. The notice shall be mailed at least ten days prior to the continued hearing date.
5. An application may be amended or modified at the prescribed public hearing without further legal notice, provided any such change or modification does not alter the original boundary in such a manner as to include either additional or different land nor propose a use substantially different from that set forth in the legal notice. When changes or modifications which exceed the scope of the legal notice are proposed at the public hearing, no action shall be taken until additional legal notice is provided.

N. Planning Commission's Authority.

1. The Planning Commission shall conduct all public hearings in accordance with Chapter 2.78 PCC.
2. The Planning Commission shall review all requests for open space land current use assessment, the Departmental report, any comments received, and applicable County regulations or policies and may inspect the property prior to rendering a recommendation to the County Council.
