Customer Information Meeting Cover Letter

Date: _____

Parcel #(s): _____ Site Address: _____

Applicant: _____ Property Owner: _____

Email: _____ Phone Number: _____

1. Associated project name/numbers: _____

2. Describe the primary questions or issues you would like to discuss at the meeting:

3. Attach any additional information such as drawings, documentation, etc. which would assist staff in understanding issues. For Commercial or Industrial projects, complete the [Master Application](#) to provide staff additional information and make the most of your meeting.

Scheduling

- Scheduling time is based on the number of working days staff need to prepare for your meeting.
- If we have a difficult time connecting with you to coordinate the date, this may cause delay in scheduling.
- The length of the meeting will depend on the complexity of the project and the number of staff attending.
- Meeting times available:
 - Monday through Friday from 8 AM to 9 AM
 - Monday, Wednesday, and Thursday from 2:30 PM to 3:30 PM
- For Health Consultation and Water Availability questions, contact them directly at (253) 798-6470 or [Tacoma-Pierce County Health Department](#).

NOTE:

Customer Meeting does not provide any vesting to regulations, procedures, or scope of work.

Customer Information Meeting Products

Verbal information

At the meeting staff will explain site constraints and permit requirements. This information will be documented on the submittal standard.

Submittal Standard

PALS+ is the electronic permit system used by the County. The Submittal Standard will include the detailed information shared with you at your meeting. This information will then be available later when you get ready to apply for permits.

GIS map

We will provide you with an 8 ½ x 11 map with the most recent orthophoto and critical area layers. County View is the geographic information system (GIS) we use.

Site Visit

Inspection of your site will be specific to the regulations that apply to your project for the discipline you have requested to inspect. For example, the Biologist would provide feedback on potential wetland, and fish and wildlife areas, and what requirements would need to be met for your project based on what they see on the property.

Formal Letter or Memo

You will receive comments in writing when Written Comments or a Memo are requested. The letter or memo will provide detailed information about the site and permitting requirements for your specified project. Examples of information you can expect to receive includes but is not limited to: zoning, density, setbacks, lot size, height, applicable community plan and comprehensive plan policies, design standards, right of way needs, access, easement, and road improvements, hazard areas, parcel alerts, critical areas, forest practices, stormwater options, parcel alerts, violations, permits required, and fees.

Contact for Follow-up Questions

You may have more questions about the particular project you came in to discuss. The staff person(s) who attended your meeting will be available after the meeting to answer these questions.
