Notes to Abstract

Provisional Ballots

Vote totals from provisional ballots were counted into the absentee precinct totals. Rather than adding the totals into the polling place results, provisional ballots are remade on to absentee ballots. This results in the ballot being counted into the correct precinct and only those items which the voter is entitled to vote on are counted.

Polling Place vs. Absentee Precinct Totals

State law requires Election Department's to report polling place and absentee results separately by precinct. Accordingly, this abstract of votes reflects both polling place and absentee results by precinct.

Polling Place results are shown in precincts numbered 1 through 667.

Absentee and Vote by Mail results by precinct are shown in precincts numbered 1001-1673 (Regular Precinct number plus 1000).

Changes to precinct totals:

In some precincts the number of people voting is very small. In order to protect the secrecy of how these voters actually voted it is necessary to transfer these totals to larger precincts. If these results were not moved it would be possible to determine how an individual voted.

To protect the secrecy of votes cast, the following precinct adjustments were made:

Number of Votes	Original Precinct	Precinct to which Votes were moved
3	02-063	02-063 ABS
